Enrichment Guide

Spring/Summer 2017

As we all look forward to the sweet smells of spring and the glorious sun of the summer, take a few minutes to enjoy a few classes, jump in the pool to energize yourself, and take time to relax! It is important as we look ahead to playing on the beaches and swimming in the pool we remember water safety is a must! Follow these few simple rules for water safety and keep you and your family safe in and around water.

1. Watch kids when they are in or around water, without being distracted. Keep young children within arm's reach of an adult.
2. Empty all tubs, buckets, containers and kiddie pools immediately after use. Store them upside down so they don't collect water.
3. Close toilet lids and use toilet seat locks to prevent drowning. Keep doors to bathrooms and laundry rooms closed.
4. Install fences around home pools. A pool fence should surround all sides of the pool and be at least four feet tall with self-closing and self-latching gates.
5. Know what to do in an emergency. Learning CPR and basic water rescue skills may help you save a life
6. Give your child swim lessons and learn how to "Roll and Float".

No matter how long the winter, spring is sure to follow. ~Proverb
