YOUTH PROGRAM

Series 1

Mondays, 4:15-6:15 p.m.
Oct. 13 – Nov. 24 (except Nov. 3)
Harvey Education Center

.....

Mouse Code Mission Grades 2-3

In this action-packed robotics class, students will begin the journey of coding and programming with hands-on activities as well as real code-and-go robotic mice to explore these complicated concepts.

The Plant Lab: Discover, Create, Grow Grades 4-5

Your student will discover how plants power our lives! Through weekly hands-on exploration, they'll dive into the edible, environmental and expressive magic of plants. They'll grow, observe, taste and experiment with herbs, flowers and functional plants, learning how these natural wonders support wellness, food, clean air and joy. Each session offers something practical to nurture or take home while cultivating curiosity, awareness and a lasting appreciation for the plant world.

Advanced Fun with Physics Grades 4-5

Students will get hands-on with physics! They'll learn to generate electricity from various renewable resources, build a simple motor, design and build a solar cooker, and so much more! Guided by an experienced scientist, they'll expand their knowledge of physics and learn how math is applied to this important field.

Give your child an unforgettable summer by enrolling them in an LCC Youth Summer Camp!

View all camp offerings and register online at lcc.edu/seriousfun.

More sessions will be offered throughout the school year!

Stay tuned for Series 2 and 3, which will include classes such as Toy Science, Understanding Algorithms, Pet Care and Brain Strategy Games.

.....

Scholarships cover the entire cost of one course (12 hours). We encourage families who receive free or reduced lunches to apply.

For scholarship information, please contact the LCC Youth Program Office at 517-483-1415 or lifelong@lcc.edu.

Transportation

Students can catch a bus from their elementary school to the Harvey Education Center to attend an LCC Afterschool class. Parents or guardians must submit a transportation request and are responsible for picking up their student when the class ends at the center (transportation requests are subject to school approval).
