

2025 PRIORITY NEEDS BOND PROPOSAL

ZERO-TAX-RATE INCREASE
FROM EXISTING MILLAGE RATE

Vote Tuesday, November 4

New Transportation Facility

16% of Bond*

The Mason Public Schools district spans more than 108,000 square miles, and nearly 50% of our students rely on bus transportation, not only for their daily commutes but also for various events and field trips. This presents significant challenges in providing sufficient space for our transportation and maintenance staff and our fleet of over 20 buses. If the 2025 bond is approved, we will have the opportunity to create safer working environments for our staff, increase their capacity, and improve our daily operations and overall efficiency.

Increase safety & security

- Replace our building with a modern facility that better protects staff, vehicles and equipment

Expand capacity

- Create more space to accommodate transportation demands and future needs

Enhance efficiency & operations

- Make upgrades to streamline maintenance and day-to-day operations while increasing safety for mechanics

Examples of spaces that need attention

*Approximate bond dollar allocations per the School Bond Committee recommendation to the Board of Education

*Paid for by Mason Public Schools
201 W. Ash Street, Suite 2A, Mason, MI 48854*
