SUMMER 2018

COMING JUNE 21ST!

MASON AQUATIC CENTER PRESENTS...

WORLD'S LARGEST SWIM LESSON!

WHAT PARENTS NEED TO KNOW ABOUT DROWNING

- Drowning is silent and can happen in seconds.
- Enroll your kids in swimming lessons; learning to swim is the strongest defense against drowning.
- Never leave kids alone in or around water, not even for a second. Put the cell phone away and give young children 100 percent of your attention when they are near or around water.
- Have young children or inexperienced swimmers wear U.S. Coast Guard-approved life jackets around water, but do not rely on life jackets alone.
- There is always risk associated with being in, on and around the water, but, loss of life from drowning CAN and SHOULD be prevented. We have the power to make that happen!
- Being safe in and around the water requires more than just swimming lessons. It requires constant, careful supervision of children, appropriate fencing, and safety equipment, protection from hazards, knowing what to do in an emergency, including CPR, and an understanding that safety is a personal responsibility.
- Learning to swim, the exposure to the water safety skills, and messages that swimming lessons offer provide a lifelong foundation for drowning prevention.

Are you ready to kick, blow bubbles, and make some noise? Join us on June 21st for the World's Largest Swimming Lesson event at Mason Aquatic Center! You can be a part of our drowning prevention team by taking part in this 30-minute swim lesson event. More than 600 locations in 20 countries will be participating on the same day – so you will be part of a truly global team! #WLSL #swimlessonssavelives #learntoswim
