

# Setting up your student account on Khan Academy (for students age 13+)

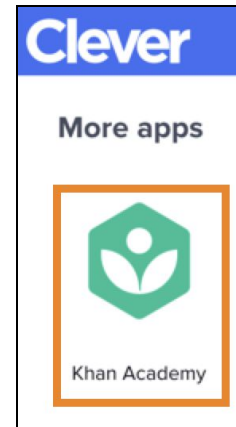

**Note:** This is a guide for students age 13 and up to activate district-rostered Khan Academy accounts.

## Step 1: Go to Clever and select Khan Academy

Log into Clever as you normally would, with your school district username and password. Or get help logging into Clever [here](#).

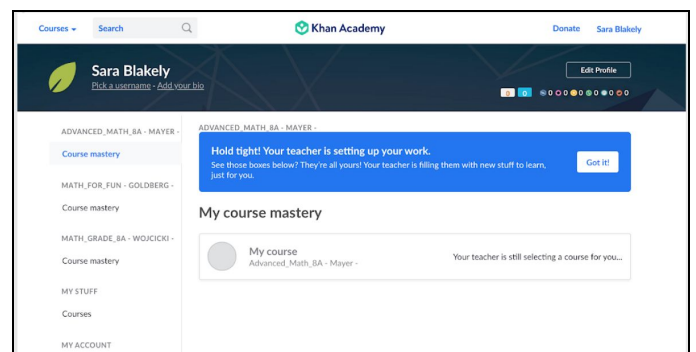

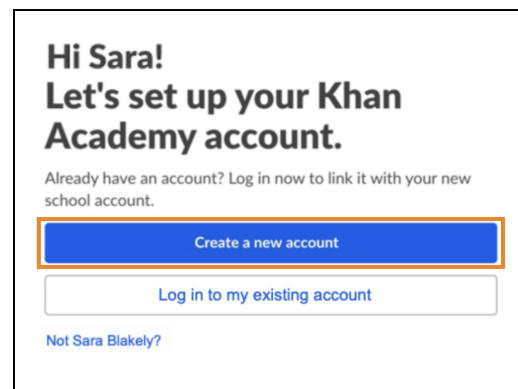

Select the Khan Academy tile, located under "More Apps" in your Clever Portal (you may have to scroll down to find it).

If you activated a district-rostered Khan Academy account last school year, after you click on the tile, you will be brought directly to your homepage.

## Step 2: Either create a new account or link an existing Khan Academy account.

If you're **new to Khan Academy**, clicking "Create a new account," will set up a district-rostered account for you immediately, and you will be taken to your learner dashboard.

Select **“Log in to my existing account”** if you have a Khan Academy school account or if you have a personal Khan Academy account that you want to link. By linking, you can view all your data in one place.

If you typically use Google Single Sign-on to log-in, select **“Continue with Google,”** or you can enter your email or username and password.

If you select **“Continue with Google,”** you will be asked to confirm which account you want to use. If you already have a Khan Academy school account and have used Google Single Sign-on to access it in the past, make sure that you select that account.

On successful log-in, we will link your existing account information.

Hi Sara!  
**Let's set up your Khan Academy account.**

Already have an account? Log in now to link it with your new school account.

[Create a new account](#)

[Log in to my existing account](#)

[Not Sara Blakely?](#)

**Okay, let's log in.**

[Continue with Google](#)

or

Your email or username

Enter your password

By logging into Khan Academy, you agree to our [Terms of use](#) and [Privacy Policy](#).

[Back](#) [Login](#)

[Continue with Google](#)

Sign in with Google

**Choose an account**  
to continue to [khanacademy.org](#)

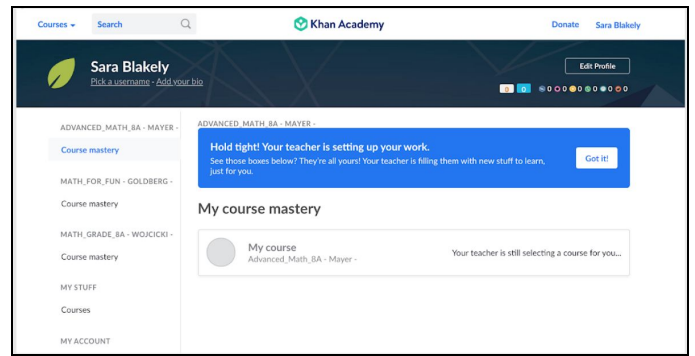

[Sara Blakely](#)  
sarablakely@district.edu

[Use another account](#)

To continue, Google will share your name, email address, language preference, and profile picture with [khanacademy.org](#).

### Step 3: View your dashboard and get started

Once you are logged-in, you will see your class(es) and courses listed on the left-hand side of your dashboard.

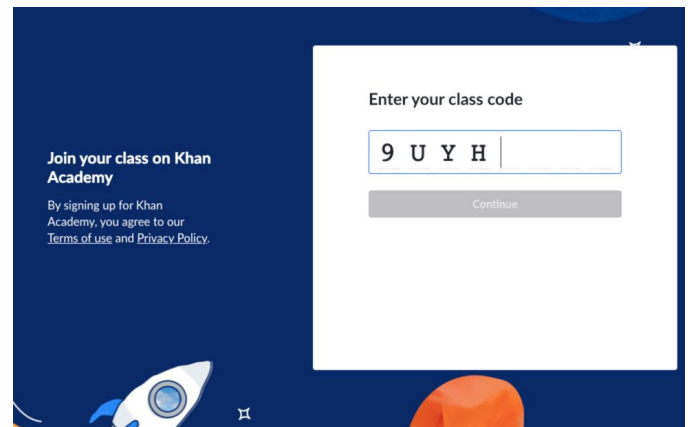

### Alternative way to join: Use a class code!

Your teacher may ask you to join Khan Academy by entering a class code. If so, you just go to:

[khanacademy.org/join](https://khanacademy.org/join)

and enter the code your teacher provided (it will be 8 characters long). Once you enter the code, the rest of the steps are similar to the above instructions.
