August 2019

Dear Parents,

The safety of your child is of utmost importance to us at Steele School. **Our building opens at 8:20 a.m. each morning and the first bell rings at 8:35 a.m.** Your child should not arrive at school prior to this time, as there is no adult supervision. Please assist us by planning your child's departure time from home accordingly.

Rapid Flash Beacons (RFB) are located on the corner Steele & Ash. Please help spread the word about the new RFB. RFB's are combined with pedestrian crossing signs and are installed at specific crossings to alert drivers. When a pedestrian pushes the button, yellow LED lights begin to flash to alert the drivers to the presence of a pedestrian. If you are aware of any unsafe conditions along your child's route to school, please keep me informed.

- Busses will drop off and pick up students *in front of the building* Students that arrived by bus will enter the building via door #1 (office door)
- All morning drop off traffic should park in the lot or use the loop located in the parking lot (former bus loop) Students dropped off will enter the building via door #16.
- After school pick up is located in the parking area, parents are asked to meet their children in that area (door #16)
- Students that walk home will exit the building at the most convenient door

For safety reasons, no child should be dropped off or picked up on the west side of Steele Street.

Let's work together for a safe year!

Mr. Kevin Dufresne
Principal
